

A large circular image on the left side of the slide showing a sunset over a field of tall grass. The sun is low on the horizon, creating a warm orange glow and long shadows. The field is filled with tall, golden-brown grass in the foreground and green grass further back. A line of trees is visible on the horizon.

TRINASOLAR - What's New

2020

Power Beyond Solar

Milestone

Builds 40 Off-grid
Solar Power Stations
in Tibet Autonomous
Region

2002

State Key Laboratory of
PV Science & Technology
is established

2012

Thailand
factory starts
operation

2016

Launches Trina
Energy IoT brand

2018

1997

Trina Solar is
founded

2006

Lists on the
NYSE

2014

Global Module
Shipments No.1

2017

Launches Trina's
Million-Roof Plan

2020

Issued first A-Shares
on Shanghai Sci-Tech
Innovation Board
